

Morning Glory

Water Effect:

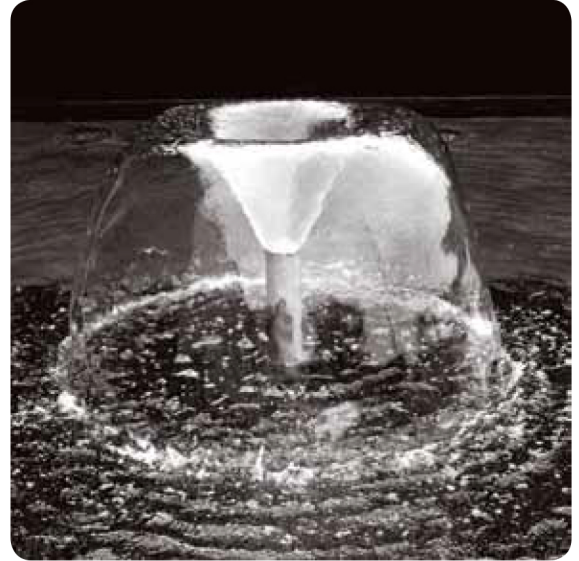

Creates a full-flow clear inverted sheet of water.

Performance Characteristics:

The Morning Glory has an integral cone that allows the water effect to be adjusted from a full sheet to a half sheet.

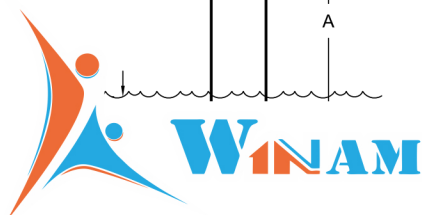

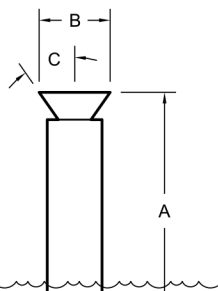

- Water Level Dependent - No
- Wind Resistance - Fair
- Sound Level - Low to Moderate
- Clogging Potential - Low
- Splash Radius - 1.5

Material: Machined brass and cast bronze
Finish: Natural brass and bronze

Detail:
